THE republican primaries on Thursday will call out the faithful to register the places of a few bosses.

LOGAN, Cullom and the other bosses of the machine have decreed that Oglesby shall be nominated for governor, and Hamilton may as well begin to look after his law practice.

LAST year it was considered necessary to have republican nominations for city officers in order to place responsibility somewhere. The bosses are not so anxious for responsibility this spring.

REPRESENTATIVES of the wrecked Pacific National bank of Boston have appeared before the house banking committee at Washington, charging that the directors have been guilty of fraud, which was made possible by the incompetency of Mr. Comptroller Knox and Examiner Needham.

A GOOD many of our eastern cotemporaries talk about the dignity of the presidential office. A great deal of the dignity that was once attached to the "presidential office" vanished with the term of four years during which the executive chair was nominally filled by a certain Buckeye "Pumpkin Taster."

THE American Register says there are no less than eight prominent republican leaders who have announced themselves as already willing to be presidential candidates. The democratic leaders are more dignified in respect to the dignity of the office, and with a statesman life self respect await to be called rather than sound their own trumpets.

THE fact that there have been several confidence games played by certain parties in this city quite lately should waken up the officers and the people. We have heard it said that there is a gang of fellows in Decatur who not only work "greenies" for all they are worth at the card table, but work trains and stations on the different railroads centering here. If our officers do not know this they should look them up. These suspicious characters should not be tolerated in the city. If a poor fellow gets full of bad whisky, he is locked up for his folly, and has to pay $3 and costs into the city treasury, or go on the chain gang. Gambling dens and houses of prostitution become notorious before they are touched. There is not an officer in the city, from the sheriff to the last man on the city force, who does not believe that "Idlewild" is running every day as a house of prostitution, and who cannot locate several gambling rooms? They should stir these things up, and not wait for an outraged public sentiment to move in the matter.

THE police of the city claim that their force is insufficient for the effectual protection of the people against bunko steerers and confidence men. The City Marshal claims to be on duty about sixteen hours of each day, and that the officers do all in their power to thwart the plans of these scoundrels, but find it utterly impossible to be "everywhere at the same time." They are known by their uniform, and offenders steer clear of them. It is not possible for them to effectually guard the platform at the Union depot, with so many trains arriving at or near the same time, and the fact is that much of the operations of this class of offenders is done on the trains. The marshal and his men claim that they do everything in their power in the interest of law and order. We would suggest that all suspicious persons be notified that the city can spare them, and be ordered to "move on," or they will be disposed of under the law relating to vagrants.

Woman as a Moral Power.

Mrs. Gibb's lecture, Sunday evening, upon woman as an element in morals was acknowledged by all who heard it to be exceedingly fine. Mrs. Gibb is, at all times an impressive speaker, clothing beautiful sentiments in the best possible language, but in this address she covered herself all over with glory by the force and beauty with which she drives home the fact, that, in morals at least, "she who rocks the cradle, rules the world." We have seldom, if ever, heard the woman question handled with so conservative prudence and progressive sense. The doctrine that woman has but to fill well the position she has, do well the moral work now before her, in order to open avenues to new positions and new fields of labor, is a good one and cannot be preached too much. Women who spend sixteen hours per day painting their faces and frizzing their hair in order to make a mash on a beer guzzler or dude would not have time nor ability to vote for temperance laws, or guide the ship of state, even if given the privilege.

Mrs. Langtry.

On Friday evening the celebrated Mrs. Langtry will appear at the opera house in "Pygmalion and Galatea," supported by an excellent company. The Manchester (Eng.) Courier says of her:

Mr. W. S. Gilbert's romantic drama, Pygmalion and Galatea, was presented last night, with Mrs. Langtry as Galatea. There was again a large and fashionable audience and the play gave unqualified satisfaction, the recall at the fall of the curtain being hearty and well deserved. The manner in which Mrs. Langtry acted her part showed conclusively that she possessed the dramatic instinct in a high degree, and that she is capable of completely absorbing herself in the character she portrays. The various phases of her awakening, and her conflicting emotions were given with consummate skill. Her passionate devotion for Pygmalion, her deep sorrow and touching tenderness when she learnt what terrible mischief her strange attachment had occasioned, were equally finely given. The scenes with Pygmalion after he had been struck blind was rendered with touching impressiveness, and the interest of the audience was excited to a pitch which availed itself of the earliest opportunity to find relief in rapturous applause. The play was admirably rendered throughout; indeed it may confidently be stated that it was never performed with more completeness and perfection.

Prices: Perquette, $2.00; outside the railing, $1.50; gallery, $1.00. Seats now on sale at Curtis & Co.'s,

Railroad Reminders.

The I. B. & W. has placed a line of Woodruff sleeping cars on their main line, between Peoria and Columbus, Ohio.

Trains have to be run with great precaution at present, owing to the road beds, which are very rough. It is due the frost leaving the ground.

The P. D. & E. from the north was forty five minutes late yesterday morning, on account of having to wait for its C. & A. connections at Delavan.

Wabash passenger engine No. 146, which is run between here and St. Louis, is one of the handsomest on the road and is generally complimented by experienced railroad engineers. It is a small and compactly built machine, and is as pretty and graceful as a deer, and can be run at a rapid speed. She is kept as neat and clean as a cottage parlor, and the most elegantly attired lady in the land could go about her without fear of dirt or grease. Since the first of last October, the engine has been idle but four days, but despite the large number of miles covered, she is still in good condition. Her engineer, Billy Anderson, is as whole souled a fellow as ever opened a throttle or blew a whistle, and has a right to be proud of the beautiful machine he runs.

DIED.

KEELER—At the family residence in this city, on Sunday morning, March 23, 1884, Willey A., infant son of Mr. and Mrs. S. T. Keeler, aged four months.

After an illness of only a week, Willey yielded up his young spirit to its maker. Although he was only four months old, his parents were fondly attached to him, and his early death has left them in deep sadness. The funeral will take place this morning at 10:30 o'clock, from the family residence on South Green street.

DICKSON. In this city, on Sunday morning, March 23 1884, of consumption, Walter F., son of Mrs. Nancy Dickson, aged 22 years.

The deceased has long been a victim of that feared disease, consumption, and his death was not unexpected, but it is a terrible blow to his widowed mother. The funeral will take place this morning at eleven o'clock, from the family residence, No. 446 South Johns street, Rev. D. P. Bunn officiating.

Soldiers' Excursion to Vicksburg, Mississippi.

The Illinois Central R. R. will run an excursion to the Confederate and Federal Soldiers' Reunion, and the Lumbermen's Convention, to be held at Vicksburg, April 10 and 11. Trains will leave Decatur at 5:25 p. m., April 8th 1884. Fare for round trip only $13.00. Return tickets good for 30 days. Stop over privileges granted at points south of Cairo, but under no circumstances will they be granted north of this point. This reunion will indeed be a grand affair. Governor Lowry, of Miss., will deliver the address of welcome. The afternoon of the 10th will be spent visiting the national cemeteries, the old fortifications and other places of interest in and about Vicksburg. In the evening a strawberry banquet followed by speeches from Gen. C. E. Hooker, the silver-tongued orator of the south, and others. The Lumbermen's Convention, to which every lumber, mill and timber man in the northwest is invited, will meet on the 11th. All boats running up the Sunflower and Tallahatchie rivers will name a one-fare round trip rate to any of their landings. This will enable parties who desire to visit the great timber lands of the Delta, that are attracting attention of mill-men everywhere, and are being rapidly disposed of at from $2 to $3 per acre. For programme of reunion, circulars of excursion etc., apply to the undersigned at Manchester, Iowa.

Ontario Asks for an Apology.

OTTAWA, Ont., March 24.—There was quite a lively discussion in the Senate Friday over the inquiry of Senator Mac Donald as to whether it had come to the notice of the Government that an Indian was recently seized within the boundaries of the Dominion in British Columbia by a party of masked men from neighboring American territory and afterward hanged, and whether satisfaction would be demanded from the United States Government for a breach of international etiquette on the part of these residents of that country. Sir Alexander Campbell stated in reply that some ten days ago the facts had been communicated to British Minister West that an Indian, named Loui Sam, had been taken out of custody at Sumas by a party of American citizens, where he was held for the murder of a white man named Bell in February, and was hanged to a tree, where his body was discovered the next day. SCROFULA

and all scrofulous diseases Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.

Yours respectfully MRS. ANN O'BRIAN."
148 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian, also upon the Rev. Z. P. Wilds of 76 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla not only in the cure of this lady, but in his own case and many others within his knowledge.

The well known writer on the Boston Herald, B. W. BALL, of Rochester, N. H., writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months of AYER'S SARSAPARILLA, which has effected a *complete cure*. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

THE DEMOCRATIC CAUCUS.

WASHINGTON, March 24.—The fact that the call for the Democratic caucus does not bind the members to abide its decision on the tariff bill, will, it is thought, result in a very full attendance next Tuesday night. Otherwise, rather than submit to caucus dictation on this question many Democratic members have said they would not go into the caucus at all. In this call are the names of Messrs Geddes, Curtin and Collins of Boston, who are opposed to the bill but they signed it they say for the purpose of taking from it as far as possible its factional flavor.

POSTAL TELEGRAPHY.

The members of the Senate Post office Committee who favor the new postal telegraph scheme say that the opponents of the bill in committee will permit it to be reported to the Senate and that there will undoubtedly be a discussion at this session. The friends of the measure do not expect it will become a law in this Congress. They do hope to be able to secure a discussion which will attract the attention of the country.

ENCROACHING UPON PUBLIC LANDS.

In his report to the Commissioner of the General Land Office George W. Fanchill, Deputy United States Surveyor of Nebraska, says that all the agricultural land of that section has been fenced in by cattle men. Their ranges extend for hundreds of miles, and wire fences inclosing valuable public lands and even water courses are posted at intervals with notices threatening the death of any person opening them. Herders assert that that they hold these lands under the desert land and timber culture laws. The result is a complete check to persons seeking to make homestead settlements.

THE FAST MAIL.

The attention of the Postmaster General having been called to reports that some newspapers whose business has been affected by the new fast mail from Chicago to the Northwest were dissatisfied with the arrangement and that they would attempt to secure a new deal, he said the Department had no knowledge of any attempt to abolish the new mail service. The fast mail [illegible] was put on because it was thought to be for the best interests of the public. There is no disposition on the part of the Government or the railroads to regret the step that has been taken and the people along the line seem to be satisfied with the results thus far obtained.

INDIAN TROUBLES.

Agent Bowman of the Navajo Agency in Arizona, who came to this city with a delegation of that tribe endeavoring to have the boundaries of the reservation extended and defined, has been suddenly called to the agency by a dispatch from the acting agent stating that an outbreak of the Indians is imminent. The Commissioner of Indian Affairs has received the following telegram from Indian Agent Dyer now with the Cheyennes at Tongue river, M. T.:

MILES CITY, M. T., March 21.—Head Waite's band has burned down Mr. Alderson's ranch. A cowboy shot an Indian on [illegible] known [illegible] great excitement prevails. Am and [illegible] Further news as soon as received. No mail or telegraph nearer than sixty five miles.

LITTLE HOPE FOR THE WHISKY BILL.

The Whisky bill was discussed at some length by the House in Committee of the Whole but no action was taken. The Republicans appear to take little interest. It is understood all round that they will vote almost solidly against it. Friends of the bill frankly admit that they have little hopes. The latest canvass of the House shows the vote will be fifteen to twenty votes short of a majority.

UNWILLING TO COMMIT THEMSELVES.

Two New York newspapers have sent special men here to ascertain the opinion or preferences of every member of Congress for the Presidency. Four men have been at work on the subject for two weeks and have almost abandoned the task. They find the Congressmen as a rule unwilling to express their opinions. They are waiting. They have no views. They want the best man. They have not heard from their districts. In short, the situation is so uncertain that they absolutely refuse to commit themselves.

THE HENNEPIN CANAL.

Mr. John C. Dore says that the friends of the Hennepin Canal have made a thorough canvass of the House of Representatives and are now convinced that the bill will be passed by a considerable majority.

WILL RESUME WORK.

The clerks furloughed from the Census Office on March 10 because the appropriation had been exhausted have been notified to resume work to-day, Congress having agreed upon a deficiency appropriation.

FORTY MILLIONS FOR PENSIONS.

The Pension Appropriation bill reported to the House shows that the estimates submitted amount to $40,000,000. Of this amount the committee allows $20,684,400; the bill appropriates $60,000,000, making available a grand total of $80,684,400. The section of an act entitled "an act relating to claim agents and attorneys in pension cases," approved June 0, 1878, is made applicable to bounty arrears of pay, lost horses and bounty land cases and pension cases in which arrears of pensions are involved. A section of new legislation in the bill provides that from and after July 1, 1884, agents for the payment of pensions shall receive only $5 for each 100 vouchers or that rate for fractions of 100 prepared and paid by any agent in excess of 1,000 vouchers per month, and further, that from and after July 1, 1884, there shall be no more than twelve agents for the payment of pensions. It is made the duty of the President to reduce the pension agents to that number.

POST OFFICES IN THE UNITED STATES.

The number of post offices in the United States March 20 was 48,993—an increase of 1,135 in less than nine months. If the same rate of increase is maintained the remainder of the fiscal year the post offices will number 50,000 July 1 next.

SENATE.

The Senate was not in session Saturday.

HOUSE.

The regular order being demanded, Mr. Belford appealed to the House to allow one hour to be devoted to the consideration of the Senate bills on the Speaker's table and, the appeal proving ineffectual he solemnly declared that no more bills could be passed during the remainder of the session.

Under the call of committees the following reports were submitted: By Mr. Nicholls from the Committee on Coinage Weights and Measures to establish an assay office at Deadwood, D. T. Referred to the Committee of the Whole. By Mr. Wait from the Committee on Foreign Affairs for the return of the balance of the Chinese indemnity fund to [illegible] to the Committee of the Whole. By Mr. Vance from the Committee on Patents adversely to reduce the time of patents to five years. By Mr. D[illegible] from the Committee on Accounts to provide one month's extra pay [illegible] employes of the House. Referred to the Committee of the Whole.

Mr. Cox (N. Y.) from the Committee on Foreign Affairs reported a resolution calling on the President for information as to what action had been taken by the United States and Venezuela under the provisions of the joint resolution providing for the mixed commission and whether Venezuela declined to make payment of any awards. Adopted.

Mr. Hancock from the Committee on Appropriations reported the Pension Appropriation bill. Referred to the Committee of the Whole.

Mr. Blackburn [illegible] resolution calling on the Secretary of the Interior for copies of all leases made by him for the use or occupation of any part of the Yellowstone National Park and also for information whether the lessees had complied with the conditions of the law and what the provisions made to prevent wanton destruction of the wild game in the park. Adopted.

A BRUTAL MURDER.

The Wife of a Farmer Near Petersburg Butchered by Her Frenzied Husband.

PETERSBURG, Ill., March 24.—Charles Houlden, a well to do farmer aged fifty years, living about five miles south of here, butchered his wife in the most brutal manner Saturday night. He and his family, consisting of five persons, were sitting at the supper table when a few unpleasant words passed between him and his wife. Suddenly the farmer arose from the table and began smashing chairs and breaking other things in his reach. Mrs. Houlden, [illegible] saying that she had stood his abuse as long as she intended to and calling to the children she began to make preparations to quit the house. Seeing this Houlden stepped into a hallway, seized an ax, returned to the room and struck Mrs. Houlden on the side of the head and felled her down. Then drawing his knife from his pocket he drew it across her throat from ear to ear and thinking she was dead started to leave the room. As he got to the door Mrs. Houlden raised up on her elbows and begged that her life might be spared until she could say a few words. Houlden again returned and cut another mortal wound in the side of her neck and stabbed her in several places about the breast and shoulders.

The assassin was soon after arrested when it was found that he had attempted to take his life by cutting a gash in his throat, but only inflicted a flesh wound. The murderer was brought to this city this afternoon and locked up in the county jail.

THE REPUBLICAN CONVENTION.

Meeting of the Sub Committee of the National Committee to Perfect Arrangements.

CHICAGO, March 24.—A contingent of the sub-committee of the National Republican Committee charged with the duty of making all the necessary arrangements for holding the National Republican Convention here June 3 met at the Grand Pacific Saturday and began laying out the work before it. A quorum of the National Committee, including Senator Sabin the Chairman, were present. It was ascertained that the local leading Republicans have already been at work pretty industriously, that it will be an easy matter to perfect arrangements and that there will be accommodation in the Exposition Building for at least 8,000 and perhaps 10,000 persons. A local Sub-Committee of Arrangements consisting of the following gentlemen was then appointed: S. J. Raymond, C. B. Farwell, General W. L. Strong, W. K. Sullivan, John Hoffman, Eugene Cary, J. G. Keith, M. Selz, Lewis Hutt, Cong. J. White, James I. Lawleigh, Joseph Stockton, John M. Smyth, John Crerar, O. W. Potter, H. N. Higginbotham and Joseph Scheniger.

The Iowa Legislature.

DES MOINES, IA., March 24.—In the Senate Saturday the bill changing the law relative to the execution of the sentence of death so as to have it at the State Penitentiary was taken up and finally passed. Bills were passed authorizing the custody of concealed weapons when told by officers relating to the care of the insane, amending the law for taking depositions and relating to number of militia regiments to six of eight companies each, and allowing militia men $1.50 per day while actually engaged. In the House a memorial to Congress asking for a pension for all honorably discharged soldiers of the late war was adopted. The memorial to Congress asking for the restoration of the wool tariff of 1876 was lost to 4. The Senate concurrent resolution authorizing the Governor to procure a portrait of General A. C. Dodge and of deceased ex-Governors, was adopted. The Senate bill authorizing the Governor to reconvey to the United States the forfeited land grant of the Sioux City & St. Paul Railroad was passed.

An Emigrant Train Wrecked.

MINNEAPOLIS, March 24.—The west bound train of the Chicago, Milwaukee & St. Paul Road telescoped the second west bound freight and emigrant train standing on a side track at [illegible] Wing Saturday. The special train consisted of twenty freight cars, two coaches filled with emigrants and a caboose. The latter was entirely demolished and thrown completely from the rails. The rear end of the hind coach containing seventy emigrants was dashed against a steamboat freight shed and badly damaged. The engine of the passenger train and tender cars were badly injured. Bradbury, conductor of the emigrant train, forgot to flag the passenger train. The emigrant party went from Durham County, Ont., and were bound for Winnipeg. Seventeen passengers were injured, two fatally.

A Murderer Lynched.

MARYSVILLE, KAN., March 24.—About forty masked men went to the jail Saturday night and five of them entered the jailer's residence presented a revolver at his head and compelled him to open the jail doors. Samuel Fryer convicted of the murder of John Pennington and wife, was then taken out and conducted to the wagon bridge in the south part of town and hanged. He is said to have made a full confession stating that he had no accomplices in the murder. The mob was very quiet and dispersed as soon as its work was done.

The Cattle Drive.

DODGE CITY, KAN., March 24.—The cattle drive to the North this year will be from 125,000 to 175,000 head. Ranches on the Arkansas and adjacent rivers report the losses of the winter at 1¼ to 1½ per cent while in Northwestern Colorado the average will be five per cent. Prices for beeves may be a little lower than usual.

Time is Money.

The harrowing pain of Rheumatism, the spending of money, sometimes even to the last dollar for useless medicines, are bad enough, don't knows. But many cases are aggravated if not made desperate, by the fact that the sufferer is mind-sick over loss of time, which he cannot afford. Just here the merits of Athlophoros are most forcibly proved. It operates directly and speedily and saves time and money which would otherwise be wasted in vain experiments with worthless medicines.

CARPENTER ACQUITTED.

The Jury at Petersburg Pronounce Him Not Guilty of Murdering Zora Burns.

PETERSBURG, Ill., March 24.—Orrin A. Carpenter was declared not guilty of the murder of his servant girl, Zora Burns, which occurred the 15th of last October, the conclusion being reached at five o'clock Saturday morning, the jury having been out just twelve hours. Judge [illegible] opened court at 8:30 to receive the verdict. He read the verdict while perfect silence reigned "Not guilty." Cheers went up in the room after the reading. Judge Lacy discharged Carpenter, who received the congratulations of his counsel and friends. He fervently pressed each juror's hand with sincere words of thanks. His wife and daughters were not present. After receiving evidences of joy from those in the court-room Carpenter immediately went to the residence of Butler Robbins where his faithful wife and daughters, with tears of gladness, welcomed back the husband and father. After resting a day or two Carpenter will return to Lincoln and go about his business as heretofore.

Carpenter was interviewed after the verdict and said he was thankful to the newspapers for their universal fairness. He blamed none for considering him guilty, allowing each person freedom of opinion. In regard to the murder he said now that his time had no further hold on him he would state positively that he was at home on the night of the murder. His wife knew it, as did his family, and therefore they believed him innocent of the terrible crime. He knew nothing of how Zora met her death or who did the murder.

LINCOLN, Ill., March 24.—The news of Carpenter's acquittal has been received. His office was filled with friends who hailed it with a shout of joy. Hats were thrown up, friends shook hands and the jury praised. On the streets his friends are shouting and cheering, while those who were against him feel sore over the verdict. Some bets were made as to the result.

Other News.

GENERAL GRAHAM'S MOVEMENTS.

LONDON, March 24.—General Graham is expected to advance Wednesday upon Osman Digma's present camp. Natives report that he has an open road for retreat to Suakat should the Berber road not be open for his march toward Khartoum. The *Daily News* states that it is considered probable that the British troops now in the Soudan will return to England within a fortnight, leaving a garrison at Suakim.

DECLARED AN OUTLAW.

LONDON, March 24.—James J. O'Kelly, formerly a well-known American newspaper correspondent, and at present Home-Rule member of Parliament for Roscommon, Ireland, has been declared an outlaw by several bodies of politicians, both Tory and Liberal. A movement is being organized to have him expelled from Parliament because of his alleged treasonable actions against the British Government in the Soudan.

SUBLIKIN'S MURDERER CAUGHT.

ST. PETERSBURG, March 24.—A number of important arrests of Nihilists have been made at Kieff. One gendarme was mortally wounded while assisting in making the arrests. It is rumored that Degaieff, the leader of the party who murdered Sudeikin, is among the prisoners.

CREMATION IN VOGUE.

LONDON, March 24.—Cremation has been gaining ground in England ever since Justice Stephens ruled that it was lawful. The London City authorities have resolved to establish a crematorium at Elford, a suburb of the East End, on the recommendation of the medical officers that cremation is the least objectionable of all known methods of disposing of the dead.

A SERIOUS OUTBREAK.

PARIS, March 24.—The *Gaulois* reports a serious outbreak in Senegal. The Moreus have broken the treaty of alliance, and are pillaging villages. Several persons have been murdered. The Fotons are making preparations to rise under Abdoulboubaker.

FRENCH SUCCESS AT TONQUIN.

PARIS, March 24.—Dispatches received here Saturday night report the capture by the French troops in Tonquin of the town of Thaingnen. The Chinese made a very weak defense of the town, and finally fled, leaving the French in possession of a very large quantity of military stores, provisions and ammunition. Several hundred Chinese were killed, but not one of the French force was injured.

OSMAN DIGMA.

SUAKIM, March 24.—It is believed from from the latest intelligence received from the rebels' position that Osman Digma's forces have almost entirely deserted him.

FAILED THROUGH.

LONDON, March 24.—It is understood that the convention between M. de Lesseps and the English ship-owners in reference to the Suez Canal has fallen through in consequence of the opposition of the French stockholders.

A STRIKE AGAINST TAXES.

LONDON, March 24.—A general strike against police taxes is threatened in Ireland, in accordance with a very broad hint conveyed in a speech of Mr. Parnell in the House of Commons, in which he said the Irish people are fools if they comply with the Crimes act in this matter. The Corporations of Cork and Limerick, the two principal cities of Munster, have already acted on his advice.

EIGHTY-SEVEN YEARS OLD.

BERLIN, March 24.—Saturday, the eighty-seventh anniversary of the Emperor William's birth, was a complete holiday. All buildings throughout the city were decked with flags. Thousands of people thronged about the palace, and nearly all the German Princes were present. The first congratulatory telegram received was from Queen Victoria.

AFFAIRS AT CRETE.

ATHENS, March 24.—Greece is fanning the excitement in Crete, and party feeling is running high. The British Consul at Candia has refused to receive a memorial submitted by the Mussulmans of the island against Photiels Pasha being Governor. The memorialists oppose him because he is a Christian.

TO BE EXPELLED.

BERNE, March 24.—The Swiss Federal Council has decided to expel four German Anarchists from the country.

The Crouch-Holcomb Case.

JACKSON, Mich., March 24.—Saturday's session in the Crouch-Holcomb case was brief, three witnesses being sworn. The defense asked for an adjournment till Tuesday next, to await the recovery of Captain Crouch, it being desirous to take his testimony before closing the case, and the request was granted. Quite a sensation was made over the testimony of R. W. McMahon, a detective of the police of Toledo, and the flight of Mrs. Galen E. Brown. Mrs. Brown took her seat in court, but when called to testify she could not be found. On observing McMahon she left the room hurriedly and dashed down the street toward the depot. Officers were sent in pursuit, and in a few minutes returned with her. She then testified that she had lived a week in Toledo with Mrs. Stanley. She denied that the place was one of ill-repute, and denied that Mrs. Carlisle was the proprietress, but admitted knowing McMahon. The latter testified to finding Mrs. Brown in Mrs. Carlisle's house of ill-fame, and took her from there and sent her home to Hillsdale. She went by the name of Kittie Palmer while there. This will kill Mrs. Brown's strength as a witness, for she swore differently when first on the stand.

Death of John J. Cisco.

NEW YORK, March 24.—John Jay Cisco, ex-Assistant United States Treasurer, died yesterday morning in his seventy-ninth year. He had been ailing from a complication of liver diseases for the past year; but had not been confined to his bed until Friday. He leaves a widow, a son and two daughters. Mr. Cisco had been known in this city for the last twenty years as one of the leading bankers. He was born here, and was Assistant United States Treasurer during Franklin Pierce's Administration.

STATE OF TRADE.

Business of the Country Rather Quiet Owing to Bad Weather and Worse Roads.

NEW YORK, March 24.—Special telegrams to *Bradstreet's* from leading cities throughout the United States do not show any improvement as compared with the preceding week. In fact, the delay in the opening of spring trade begins to be commented upon in all directions. The continuous wet or stormy weather which has visited almost the entire country is to blame, for in the distribution of general merchandise the movement had already proceeded as far as it could in the absence of active trading on the part of the farmer and residents of the smaller interior towns. Bad roads, necessary farm work and the discouraging character of the weather prevented the depletion of stocks and the commercial community are apparently only awaiting the removal of this obstacle to enjoy a moderately prosperous spring trade. At a few points, notably Minneapolis, Chicago, St. Paul and Kansas City, there has been more activity than elsewhere. There are no reports yet of damage to the full-sown wheat which have secured attention. Our advices are that Minnesota will not enlarge its wheat acreage much in 1884, while a larger acreage in Dakota is confidently expected. Iron is quiet, with prices firm and unchanged. The reduced spring rates on anthracite coal are expected to result in considerable new business. A decision as to continuing half-time production after April 1 will probably not be given until that day. The wool trade has continued very quiet, but values have undergone no quotable change.

WHAT AILS THE CATTLE.

Not Foot-and-Mouth Disease but Ergot in the Hay—The Scare Over.

NEOSHO FALLS, Kan., March 24.—The veterinary surgeons here investigating the cattle disease are now positive that they have discovered the source of the trouble, and all agree that it is not epizootic aphtha, lacking many of the important symptoms of that disease. It is not lack of care, neither is it alkali water. It is no contagious disease. Dr. Salman says that as soon as he saw the cattle he thought of ergot, and they proceeded to examine the hay. This had not been done before. They found it to contain a large amount of wild rye which was full of ergot. The surgeons all say they never saw one-twentieth part so much ergot in a bunch of feed. The theory is that the ergot, by contracting the blood vessels and otherwise retarding the circulation in the extremities, caused the feet to freeze. This ends the great scare.

TOPEKA, Kan., March 24.—Action in both Houses on the quarantine bills progressed favorably Saturday. Each House has a separate bill on the same subject, and they differ somewhat.

THE SOUTHERN FLOODS.

A General Rise in the Mississippi River from Cairo to New Orleans.

CAIRO, Ill., March 24.—The river is assuming greater proportions than was supposed. It rose the last twenty-four hours eight inches. The gage is at forty-six feet nine inches, five feet below the high water mark of last month, with a prospect of eighteen inches more. Every landing on the Kentucky shore between here and Paducah, Ky., is entirely submerged, six feet covering Ogden's Landing. The people have gone to higher ground, and the familiar waste of waters of last month is seen everywhere. There is seven feet of water in the outskirts of Paducah, where the gas-works are situated. All the tobacco warehouses have suspended operations. The waters have reached Front street in Metropolis and surrounded Green's Hotel, which was reached through the bayou from the river. Eighteen inches more will entirely overflow Joppa, repeating on a smaller scale the scenes of a month ago. Below here to Memphis the lower landings are gradually being absorbed by the floods.

The Fire Record.

NEW YORK, March 24.—The New York Electric Candle Company's factory, at the foot of West Fourteenth street, was totally destroyed by fire Saturday evening. The loss on stock and building is estimated at $200,000. The fire extended to and destroyed Popham & Co.'s lard refining establishment; loss, $75,000. The liquor store of O'Connor & Maloy; loss, $3,000. The store of Mrs. Eaves, a costumer; loss, $20,000. The printing office of Vreeland & Twomey; loss, $10,000.

CHATTANOOGA, Tenn., March 24.—About two o'clock Saturday morning the Tennessee Ax-handle Factory was burned, causing a loss of $18,000.

GALENA, Ill., March 24.—James Westwick's foundry and machine-shop were burned on Monday night. Loss, $5,000.

HILLSBORO, Tex., March 24.—A two-story brick block of seven stores, owned by J. D. Warren, was destroyed by an incendiary fire early Saturday morning. Total loss, $50,000.

CARROLLTON, Ill., March 24.—The Phœnix Hotel at Roodhouse, Greene County, burned down Saturday morning. Loss, $7,000; insured for $5,000.

BALTIMORE, Md., March 24.—The extensive works of the Flaminzo Guano Company, of this city, and the adjoining chemical works of P. S. Chappell & Sons, were totally destroyed by fire yesterday morning, involving a loss of over $200,000.

General Grant Makes a Correction.

WASHINGTON, March 24.—General Grant said Saturday that he was incorrectly reported in an interview with a New York reporter, in being made to say that he would not dine with Blaine, even though he had been invited to do so. He merely said, in answer to a question, that he had not been invited to dine with Blaine, and did not expect to be. Grant denies that he has any hostility toward Blaine. "All Republicans," said he, "should be united and friendly for victory."

Fees of Illinois Superintendents.

SPRINGFIELD, Ill., March 24.—One of the Commissioners of Wabash County writes to the Attorney General to know whether, in addition to the salary named by the County Board, the Superintendent of Schools is entitled to his two per cent., and the answer is that he is. The information is also sought as to whether, in drainage districts, the County Clerk is entitled to fees as drainage clerk in addition to his fixed salary, and the Attorney General says he is not.

Fatal Explosion of Fire-Works.

CINCINNATI, March 24.—By an explosion of fire-works in the establishment of Diehl & Co. three men were seriously burned about the face and hands. They are Thomas Diehl, George Johnson, Edward Flanigan. After the explosion, the roof fell on the men, holding them till help arrived. Flanigan died shortly after reaching home. Johnson, the foreman, was badly burned about the head and face and hands, and Diehl was also severely burned.

See in another column what E. R. Chase, John W. Parks and others, who have bought White's gate and are handling the same, have to say. White, on the 16th, while coming from Neoga to Decatur, sold $800 00 worth of his gate territory. He had been home for a few day's past, but is back and on the 19th sold two thousand five hundred ($2,500) worth of territory. On the 18th one of White's agents sold $425.00 worth contracting $500 00 more. So you see that White's sales during the week amount to over three thousand dollars. The most of this we know to be a fact, as we have seen the notes. It must be remembered that White takes good notes for pay, that each one buying can have ample time to make same, and White, often gives those who buy largely an agency to sell counties and states of his territory yet unsold. Come and see a large gate on the street in front of the New Deming hotel. It can be operated with one finger, while in a wagon, buggy, or on loads of hay; in fact can be opened and shut from the same side, and it makes its own fastening without a latch. His yard gate, which goes with it, is beautiful, cheap, and great for partition fences, etc. Call and see how you can buy states and counties. See WM R. WHITE, at Drake's Hotel, Decatur, Ill. 22-w

A twelve-year old son of B. H. Kinman, of Lincoln, was accidentally shot on Saturday, receiving a very painful, though not necessarily fatal wound. A hunting party composed of J. Abbott, A. Bradley, Wm. Berry, Zach. Pope, and Frank Blakeney, left yesterday for Spring Lake, fourteen miles this side of Pekin. The police are determined to break up the practice of young men and boys jumping on and off moving trains, while they are running and switching through the yards. It is carried on at a wholesale rate, and it is a wonder that newspapers do not have to chronicle more accidents as a result. A few arrests and heavy fines, as provided by law, may have a desirable effect on persons who will persist in maintaining the dangerous practice.

Our neighboring town of Macon recently rejoiced in the luxury of a barber shop and the society of a tonsorial artist named John Gordon. An outfit was purchased for him by Mr. W. W. Tobey, who allowed Gordon to run the business in his (Gordon's) own name. Gordon contracted a good many debts, sold the outfit to Mr. N. Hill, and left for parts unknown—to his mourning creditors. Tobey has replevined the stock sold to Hill, and a lawsuit of some magnitude is on his hands. Rome Richmond sorrows over a "ticker" sold to Gordon on credit just before his flight, and Jim Sturgis is out $15 for cigars.

Frank Butler, a little Indian boy, sallied from his wigwam yesterday afternoon arrayed in his war paint, and with the evident intention of going on the war path While scouting on North Main street, he spied a small specimen of a, pale face, named Martin, and with a whoop swooped down on his victim, most likely intending to scalp him on the spot. The untutored child of the forrest dealt Martin a blow on the head with a bottle filled with water, and having vented his spite on the innocent victim, he hied himself to some secluded spot and managed to keep out of reach of the police. Young Martin's head was slightly cut, but he may be thankful that he was not taken prisoner and burned at the stake.

A Thief Captured.

Yesterday morning Marshal Mason left for Maroa, having learned that Wm. Murphy, who was wanted for holding up Daniel Rogers on Saturday afternoon, had started up the railroad track in that direction. Not being positive as to whether Murphy followed the Illinois Central or the P. D. & E., the Marshal sent Officer Acker to Warrensburg, to see if the young man had shown up in that village. Acker returned in the afternoon, having found that Murphy did not go in that direction. Marshal Mason spent the day at Maroa, but did not find his man or hear from him, until the Central train, which leaves here at half past three, arrived in that town. Parties on the train told him of having seen a man answering Murphy's description, coming towards Maroa. The Marshal cautioned the officers to keep a watchful eye on the track, and took the Central train for home. On the way down he saw Murphy plodding along and as soon as the train reached Forsythe, he telegraphed the Maroa police that the game was coming. In less than half an hour after he arrived home, he received word from Maroa that Murphy had been captured. Marshal Mason will go up this morning and bring the young man down and lock him up. There is some difference in the reports regarding the amount of money Murphy and Farmwalt got from Rogers. The old man stoutly maintains that he lost in the neighborhood of $170.

A May Festival.

The High School Alumni committee, consisting of Misses Hattie Brown, Lena and Annie Henkle, and Messrs. Sherman McClellan, Fritz Westerman, and Will Heilman, met last evening at the home of Miss Hattie Brown, and decided to hold a festival at the tabernacle on the first Thursday in May. Invitation, reception, literary, musical, table, and decoration committees were appointed. The special committees will be informed of their duties in due time. The festival which will be the opening affair of the summer social season, will be elegant in every respect. Invitations to the number of about five hundred will be issued, and the success of the venture is already assured. The date of the festival brings it at the brightest and most pleasant season of the year, and we predict that it will be the gayest affair that Decatur has witnessed for a long while. The special committees will meet next Tuesday evening, at the residence of Mr. J. W. Haworth.

Funeral of Mrs. Brown.

The funeral of the late Mrs. C. H. Brown, took place Sunday afternoon from the Presbyterian church, the edifice being filled by the hosts of friends of the deceased. The solemn and impressive services were conducted by Rev. W. H. Prestley, who paid a tender tribute to the memory of the deceased, who was a faithful and consistent member of the church. The floral offerings were beautiful, consisting of a large hyacinth cross; an anchor of white flowers; an immense harp; a white star; a large basket of white flowers, and many other tokens of sympathy and esteem. The music by a chorus of twelve voices was harmonious and beautiful, and touched a responsive chord in every heart. The remains were confined to the silent tomb in Greenwood cemetery, mid the weeping of friends.

Another Confidence Game.

On Saturday morning a young German, who came to this city on an early train, was swindled out of about thirty-two dollars, by a confidence man who easily worked himself into the good graces of his unsuspecting victim, and accomplished his purpose. The swindler spoke German fluently, and enticed the young Teuton up town, where he succeeded in borrowing $32. Immediately after he excused himself, saying he had to go and see a friend, and darting up a stairway was not seen again by his easy victim, who waited in vain for his return, and then went back to the depot. He took the train for La Salle, going on the strength of a large trunk which he owned. He failed to report his case to the police, until several hours after he was swindled, and the confidence man therefore had ample time to escape.
